SUNPRİME DOGAN SİDE BEACH OTEL

ENVİRONMENTAL POLİCY

15,04,2024

The main principle is toensure economic and social development by protecting human health, ecological balance , cultural, historical and esthetical values.

We have assigned Rızvan Şimşek and Ersin Birben as the persons in charge of our sustainable tourisim program, in order to protct the environment, minimize the negative effects of our establishment on the environment , contribute to the development of the environment and society we live in, all for the sake of sustainable tourism.

We will comply with all applicable environmental laws, legislations and regulation and determine definite purposes and objectives for protecting the environment. Following such purposes and objectives,we will;

-Reduce our energy consumption,

-Reduce our water consumption,

-Reduce our waste production.

-Supportrenewable energy consumption as much as possible and ensure that least-environmentallyharmful materials are used concerning the environment.

-Deliver trainings to our employees with regard to environment and ensure internal and externalcommunication, with the intention of limiting and minimizing the effects of the operation of our establishment on the environment.

Revised.
