Our Employees Safety and Investing in Human

Our employees is our most precious.All our processesare constantly improved and the latest tecnologies are followed to minimize the risks that our employees and business partners will put their health and safety at risk and prevent workplace accidents.The education of our employees , the protection of human rights and obligation to respect religion , language and race discrimination are our indispensable.

We are committed to treating our staff fairly and respecting human rigths.

Guest Orienttation, Guest Satisfaction and Guest Safety

Our guest are the reasonwe exist.Following all complaints from all kinds of sources , resolving them and informing our guests and converting the complaints into an opportunity is our priority value.

Respect to the Environment:

Our main goals are using our natural resources in the most efficient way to prevent environmental pollution and to protect natüre, reduce the amount of waste , provide recycling.

We are committed to reducing the greenhouse gaz emissions that ocur during the operation of our hotel.

We are also committed to protecting and supporting biodiversity during our work.

Energy Consumption:

The Dogan Side Beach otel aims to use our energy resources in the most efficient way and to improve energy efficiency continuously.

Food Safety and Hygiene:

Our main aims are applying food safety system throughout the food chain to provide quality and food safety products and constantly improving and keeping hygiene conditions in the whole chain of the owners.

Investors and Business Partners

We define the expectations and requirements of our investors who share the same goal and are providing a peaceful and safe work environment for our employees and our business partners.We work to provide better service than our competitors at the most reasonable cost.

Supporting Local Economy and Sustainable Procurement Practices:

We are aware of our contribution to the local economy so % 100 of our suppliers and our raw materials are local. We buy less energy , water , waste and environmentaly friendly products for sustainable tourism. In the light of these principles, our hotels competing in the national and international markets are constantly developing and providing resources , always showing the detemination to be a leader.

Our Responsiblity to the Environment:

RESPECT...

We respect the World and environment to be respected in the World.

Without compromising the comfort of our hotel guests, it is aimed to control the water , electric and energy consumption and to control the amount of solid and chemical wastes and to minimize the dangerous effects on the environment and the natural sources.Under the light of the principles of sustainable tourism , we reduced and terminated , if possible the consumption of natural sources and minimized the dangerous effects on soil , water and air. Thanks to the precautions we have taken.

Our effect on environment

Environment plays an important role for our hotel . Our aim is to prevent the destruction of clean beaches , püre water and healthy flora.

Our responsibility

At Sunprime Dogan Side Beach Otel , we take care of the people and the environment and wish our guests feel comfortable in our hotel in every aspect. To provide this , we intend to continue to make successful efforts to increase the sustainable to maintain the existence of the clean beaches, clean water , püre air , healthy forests and cultural places.

Sustainability:

Usage of local services and products are very essentialin order to protect the environment , besides have a very vital importence in maintaining the quality standards .addition, we play an important role in the employment of the local people.. Thus we allways work to improve the environmental actions and to increase the attendance. We target to minimize bthe effects of our actions onthe environment. And we encourage our staff to make active contributions to our commitment to theenvironment. Beyond simply fulfilling the environmental regulations , we are proud of our activities aiming to raise environmental awareness in our staff, guests, business associates and local people.

Our goals:

The following issues are particularly important for us:

.To create sustainable opportunities.

.To maximize the positive effects of our ecologic and social activities.

.To protect the natural sources.

.To use environment friendly Technologies.

.To adjust our services to local features.

.To prepare sustainability reports regularly.

.To contribute the development of the district.

Recycling- Renewable Energy

Recyclable waste is sorted in our hotel .Recycling amounts are updated every year with sustainability reports.

Tehere are solar panels in our hotel and most of the hot water need is provided by these panels.

Our hotel is aware of its place in our society. Our hotel does its part with both social and cultural aid. We are committed to being responsible members of this society of ours.

Although our hotels age group +16 as a concept. We have developed policies to protect children and prevent abuse and our staff is trained on how to behave if they encounter such a situation outside, even if not inside the hotel.

Our Other Applications:

.In our hotel , if the room balcony door is opened, the heating/cooling system is outomatically turned of.

.A system used to cut off the electrical power after our guests leave the room.

.Compact fluoresaent bulbs and LED lighting are preferned in % 95 of our lighting system.

.Towels and sheets are changed in the rooms in line with guests requestsand guests are informed about this. If the guest does not request changes , changes are made every two days.

.Toilet cistems are set to cansume 6 liters in order to save water.

.Our guests are informed not to throw away the boks , magazine and newspapers they have read and want to dispose of , but to leave them in our book reading area within the hotel.

.There is a ' waste battery box ' for batteries that have reached the and of their life and guests are directed to throw their used batteries here, if any.

.Recycling bins are placed in general areas for our guests recyclable waste.
